Our Client, a Karachi based company has the following junior management vacancies for its head office. Outstanding individuals who are dynamic, cognizant of changes in environment, focused, team player and are driven by goals meeting the mentioned qualification and criteria are encouraged to apply.

### ECOMMERCE ANALYST

#### Key Responsibilities:

- Evaluate cutting-edge technologies and methodologies to help build and define ecommerce strategies and business proposals.
- Provide technical support and guidance in planning the eCommerce projects where alternative designs are evaluated and the best technical solution is developed for a cost estimate.
- Write technical reports on the concept projects, proposals and potential investments.
- Analyze potential technical risks in the eCommerce projects and devise mitigation strategies.
- Identify sourcing new products and technologies to keep relevant within the eCommerce industry.
- Assist in preparing detailed reports and executive presentations that cover review findings, enabling senior management to make more informed decisions.
- Communicate technical needs and requirements into specific deliverables for the development team.

#### Education, Skills & Experience:

- Minimum 16 years of education, preferably Master's from a renowned and HEC recognized university or institution / equivalent foreign degree holder institution, in eCommerce business and/or technology.
- Possess overall 3-4 years professional experience with minimum 1-2 years related experience in a junior management position.
- The incumbent shall possess analytical, interpersonal, adaptability, and teamwork skills.
- Excellent communication and report writing skills.
- Proficiency in MS Office (MS Word, MS Excel, Power Point).
- Understanding of eCommerce business and technology.
- The candidate should not be more than 30 years of age as of last date of submission of application.
